2

Twiggy

Every aspect of Twiggy is slim, from its stem to its base. And its long reach allows you to illuminate a dining area or living room without installing a ceiling light.

Height: 77-85"
\$2,020
www.propertyfurniture.com

3

Melampo Floor

A cutout in this lamp's shade lets you swing the light source into three different positions—normal, askew, and upturned—to vary the direction and intensity of the light.

Height: 54"-65"
\$848

4

Toio

The Toio is a bold yet refined alternative to the halogen torchere that nearly burned down your dorm room. Its bulb is a car headlight; fishing-rod rings guide the cord down its stem.

Height: 67-78"
\$1,375

5

Tripod G5

Functionally, a tripod base provides stability without adding weight; visually, it gives the lamp generous proportions without adding volume.

Height: 70"
\$1,020
www.ameko.com

6

Ballfinger

Some of the sleekest task lamps have been reproporioned for an easy transition from desk to floor. Place one next to your favorite chair; it'll save space on your side table.

Height: 49"
\$1,040

7

Uphill

The Uphill is part of a series called Lamscapes, in which quotidian lampshades melt into one another to make a larger one. The result, as you can see, is magical.

Height: 67"
\$1,600
